2015
ANNUAL REPORT

* *For identification purposes only*

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET ("GEM") OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE "STOCK EXCHANGE")

GEM has been established as a market designed to accommodate companies to which a high investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and The Stock Exchange of Hong Kong Limited take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

This report, for which the directors of Shanghai Qingpu Fire-Fighting Equipment Co., Ltd. collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on the Growth Enterprise Market of The Stock Exchange of Hong Kong Limited for the purpose of giving information with regard to Shanghai Qingpu Fire-Fighting Equipment Co., Ltd. The directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief the information contained in this report is accurate and complete in all material respects and not misleading or deceptive and there are no other matters the omission of which would make any statement herein or this report misleading.

CHAIRMAN'S STATEMENT

RESULTS FOR THE YEAR

For the year ended 31 December 2015, the Group recorded total revenue of RMB67,679,000 and loss attributable to the shareholders of RMB1,070,000. The Group's revenue was derived principally from its manufacture and sale of pressure vessels (including fire-fighting equipment products and pressure vessels products) in the PRC (excluding Hong Kong) and overseas, provision of fire technology inspection services, commission received on trading of sanitary-ware and sales of acquarium products and other products.

SALES

The Group's revenue decreased by RMB49,807,000 from RMB117,486,000 in 2014 to 67,679,000 in 2015.

PROSPECT

The Company's fire extinguisher products cover three categories, carbon dioxide, water-based, and dry powder. The wide product range offered by the Company can meet the diversified needs of the customers. In addition, the Company's fire extinguishers for non-marine use are granted the Certificate for Product Type Approval by the CCCF and its fire extinguishers for marine use are granted the Certificates of Type Approval by the China Classification Society, Shanghai Branch ("CCS"). The Company's pressure cylinders have obtained the manufacture licence in the PRC and they meet the quality standards or requirements of the USA and the European Union.

Measures have been and will be implemented continuously to improve the operation efficiency and to control production costs. Production will be more focused on higher-margin products and production of lower-margin products will be reduced to raise the overall profit margin of the Company. With the economic uncertainties continue to grow in China in 2016, the Company will continue to improve the profitability of the Group by increasing the operation efficiency and reducing the overhead expenses.

LONG TERM STRATEGY

We believe that the Company, with our experienced management team, firm and clear development directions, the manufacturing of quality products and the provision of quality services, will be able to sharpen the competitive edge. The Company will continue to develop new market of higher-margin products/businesses and also prudently consider acquiring relevant enterprises which possess sound profitability by way of capital increment in accordance with the relevant laws and regulations in order to accelerate the growth of our profitability so that the Company will become a major enterprise in the manufacturing, sale of fire-fighting equipment and relevant business service provider in the PRC and overseas. The Group is also seeking for opportunity to further reduce overhead expenses and maximize production efficiency.

OUR PEOPLE

The Group will further optimize its staff structure. The Board would like to express its gratitude to the employees of the Company for their invaluable contribution to the business of the Group.

DIRECTORS

My thanks go to the Directors of the Company for their professional work. The Board will endeavor to work professionally and painstakingly for achieving prosperous performance of the Group in the future.

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

For the year ended 31 December 2015, the Group recorded a turnover of approximately RMB67,679,000 (year ended 31 December 2014: RMB117,486,000), representing a decrease of approximately 42% over last year because customers stop ordering or ordering less due to the weak economic environment in China. In addition, change in business model from sales of sanitary-ware and other products to commission income received on trading of sanitary-ware and other products also lead to the decrease in turnover compared with the year ended 31 December 2014.

GROSS PROFITS

For the year ended 31 December 2015, the Group recorded overall gross profit of approximately RMB14,718,000 (year ended 31 December 2014: RMB21,367,000), representing a gross profit ratio of 22% comparing to 18% for the year ended 31 December 2014. The increase was mainly due to concentration on sale of higher profit margin products and tighter cost control on productions..

OTHER INCOME AND GAINS

Other income and gains for the year ended 31 December 2015 decreased by approximately RMB2,336,000 from RMB7,070,000 for the year ended 31 December 2014 to approximately RMB4,734,000. This is mainly due to decrease in fair value gains on investment properties in 2015.

SELLING AND DISTRIBUTION COSTS

For the year ended 31 December 2015, the Group's selling and distribution costs increased to approximately RMB2,757,000 from RMB2,476,000, representing an increase of 11% over the corresponding period of last year. This is mainly due to the increase in promotional expenses in the last quarter of 2015 hoping to build a stronger foundation for the sales in 2016.

ADMINISTRATIVE EXPENSES

For the year ended 31 December 2015, the Group's administrative expenses amounted to approximately RMB17,160,000 (year ended 31 December 2014: approximately RMB17,496,000), representing a decrease of 2%. The decrease is mainly due to tight control on administrative expenses.

FINANCE COSTS

No significant finance costs were recorded for the years ended 31 December 2015 and 2014.

MANAGEMENT DISCUSSION AND ANALYSIS

INCOME TAX

No provision for Hong Kong profits tax have been made as the Group had no assessable profits arising in Hong Kong during the year (2014: Nil). Under the Corporate Income Tax Law, the corporate income tax ("CIT") rate is calculated at a rate of 25% (2014: 25%) on the Group's estimated assessable profits for the year ended 31 December 2015.

Under the Corporate Income Tax Law, the CIT rate applicable to small-scale enterprises with low profitability that meet certain conditions shall be reduced to 20%. One of the Company's subsidiaries has been designated as a small-scale enterprise. Pursuant to the notice of the Ministry of Finance and the State Administration of Taxation on Preferential Income Tax Policies for Small Low-Profit Enterprises, the CIT rate is calculated at a rate of 20% on the 50% assessable profits generated by this subsidiary for the year ended 31 December 2015.

Pursuant to an approval document issued by the Shanghai Municipal Bureau of Local Taxation, another subsidiary of the Group had been designated as a small low-profit services enterprise and was subject to the concessionary tax rate of 2.5%. Under the Corporate Income Tax Law, the CIT rate was calculated at a rate of 25% on the 10% revenue generated by one of the Company's subsidiaries for the year ended 31 December 2014.

NON-CONTROLLING INTERESTS

For the year ended 31 December 2015, loss for the period attributable to non-controlling interests is approximately RMB773,000 (year ended 31 December 2014: loss RMB1,332,000).

LOSS/PROFIT ATTRIBUTABLE TO SHAREHOLDERS

For the year ended 31 December 2015, the Group recorded loss for the year attributable to the owners of the Company of approximately RMB1,070,000 (year ended 31 December 2014: profit of RMB7,334,000). The loss was primary attributable to the decrease in sales because of the weak economic environment in China.

EMPLOYEES

As at 31 December 2015, the Group had 277 employees (2014: 286 employees). Remuneration is determined by reference to market terms and the performance, qualifications, and experience of individual employee. Other benefits include contributions to retirement scheme.

Under relevant local government regulations, the Group is required to make contributions to a defined contribution retirement scheme for all qualified employees in the PRC. The Group has, in compliance with relevant local government regulations, made payment for such scheme during the year. The Group has no obligation for the payment of other retirement and non-retirement benefits of employees other than the contributions described above.

The Group has not experienced any significant labour disputes or strikes which have led to the disruption of its normal business operations. The Directors consider that the Group's relationship with its employees to be good.

TO THE SHAREHOLDERS OF
SHANGHAI QINGPU FIRE-FIGHTING EQUIPMENT CO., LTD.
(A joint stock limited company established in the People's Republic of China)

We have audited the consolidated financial statements of Shanghai Qingpu Fire-Fighting Equipment Co., Ltd. (the "Company") and its subsidiaries (together, the "Group") set out on pages 21 to 84, which comprise the consolidated statements of financial position as at 31 December 2015, and the consolidated statement of profit or loss, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

DIRECTORS' RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with International Financial Reporting Standards and the disclosure requirements of Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. Our report is made solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation of consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

INDEPENDENT AUDITORS' REPORT

OPINION

In our opinion, the consolidated financial statements give a true and fair view of the financial position of the Company and its subsidiaries as at 31 December 2015, and their financial performance and cash flows for the year then ended in accordance with International Financial Reporting Standards and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

NOTES TO FINANCIAL STATEMENTS

31 December 2015

1. CORPORATE AND GROUP INFORMATION

Shanghai Qingpu Fire-Fighting Equipment Co., Ltd. (the "Company") was transformed into a joint stock limited liability company in the People's Republic of China (the "PRC") on 1 December 2000 and was renamed as Shanghai Qingpu Fire-Fighting Equipment Co., Ltd. ("上海青浦消防器材股份有限公司"). The registered office of the Company is located at No. 1988, Jihe Road, Hua Xin Town, Qingpu District, Shanghai, the PRC and its principal place of business in Hong Kong is situated at Unit 2605, Island Place Tower, 510 King's Road, North Point, Hong Kong.

On 30 June 2004, 55,560,000 new H shares in the Company were issued and listed on the Growth Enterprise Market of The Stock Exchange of Hong Kong Limited (the "Stock Exchange").

During the year, the Group was involved in the following principal activities:

- manufacture and sale of pressure vessels (including fire-fighting equipment products and pressure vessels products);
- provision of fire technology inspection services;
- manufacture and sales of iron casted grooved couplings;
- trading of sanitary-ware and other products; and
- sales of aquarium products.

The sales of aquarium products was commenced during the year through a newly incorporated subsidiary.

In the opinion of the directors, the Company's immediate holding company is 聯城消防集團股份有限公司 (literally translated as "Liancheng Fire-Fighting Group Joint Stock Co., Ltd.", "Liancheng"), which is a limited liability company established in the PRC, and the ultimate holding company is 浙江恒泰房地產有限公司 (literally translated as "Zhejiang Hengtai Real Estate Company Limited", "Zhejiang Hengtai"), which is a limited liability company established in the PRC.

1. CORPORATE AND GROUP INFORMATION (CONTINUED)

Information about subsidiaries (Continued)

* Ascenda Cachet CPA Limited is not the statutory auditor of the subsidiaries.

@ Pursuant to the supplemental agreement entered into by Anchor and the non-controlling interest, 54% and 46% of the net profit of Special Cylinder would be shared by Anchor and non-controlling interest, respectively.

\+ These subsidiaries are registered as limited liability companies established in the PRC.

\# The total registered/paid up capital of Special Cylinder is RMB19.17 million, of which 40% of the capital should be contributed by 上海洋涇工業公司 (literally translated as Shanghai Yangjing Industrial Co., "Yangjing"), by transferring the legal title of the land use right together with the property and buildings constructed thereon (the "Relevant Property") to Special Cylinder. The legal title of the Relevant Property has not yet been transferred to Special Cylinder as at the end of the reporting period and date of approving these financial statements. The legal title of the Relevant Property is held by 上海廣洋企業發展總公司 (literally translated as Shanghai Guangyang Enterprise Development Corp., the holding company of Yangjing, "Guangyang") but the Relevant Property has been used by Special Cylinder. As Guangyang is still the legal owner of the Relevant Property, the prepaid land lease payments and buildings have not been recognised but recorded as amount due by YangJing included in non-controlling interests in the consolidated statement of financial position as at 31 December 2014 and 2015. Accordingly, the amortisation/depreciation of the Relevant Property of approximately RMB296,000 for each of the year ended 31 December 2014 and 2015 was not provided for in the consolidated financial statements.

As advised by the PRC legal advisers to the Group, (i) the entity(ies) recorded in the register of equity interest holders shall be recognised as the legal equity interest holders of the company and such entity(ies) can legally claim and exercise its rights as an equity interest holder of the company; (ii) Yangjing was, and is, recorded in the Company Shareholder (Promoter) Investment Information (公司股東（發起人）出資信息) of Special Cylinder, which is a type of register of equity interest holders, as the holder of 40% equity interest in Special Cylinder, and therefore, Yangjing was, and is, the legal holder of the 40% equity interest in Special Cylinder; and (iii) Yangjing's status as the legal holder of 40% equity interest in Special Cylinder shall not be affected by the failure of Yangjing in completing its capital contribution obligation but pursuant to the PRC Company Law and judicial interpretations thereto, Special Cylinder is entitled to require Yangjing to procure the transfer of the legal title of the Relevant Property to Special Cylinder.

^ Shanghai Ogino is classified as a subsidiary of the Group by virtue of the Group's control over it.

\## All the percentages of equity attributable to the Company remain unchanged with previous year except when otherwise indicated.

2.1 BASIS OF PREPARATION

These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRSs") (which include all International Financial Reporting Standards, International Accounting Standards ("IASs") and Interpretations) promulgated by the International Accounting Standards Board ("IASB"). These consolidated financial statements also comply with the applicable disclosure requirements of the Hong Kong Companies Ordinance relating to the preparation of consolidated financial statements. In addition, these consolidated financial statement include applicable disclosures required by the Rules Governing the Listing of Securities on the Growth Enterprise Market (the "GEM Listing Rules") of the Stock Exchange. They have been prepared under the historical cost convention, except for investment properties, which have been measured at fair value.

These consolidated financial statements are presented in Renminbi ("RMB") and all values are rounded to the nearest thousand except when otherwise indicated. RMB is the Company's functional and presentation currency.

2.1 BASIS OF PREPARATION (CONTINUED)

Basis of consolidation

These consolidated financial statements include the financial statements of the Company and its subsidiaries (collectively referred to as the "Group") for the year ended 31 December 2015. A subsidiary is an entity (including a structured entity), directly or indirectly, controlled by the Company. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee (i.e., existing rights that give the Group the current ability to direct the relevant activities of the investee).

When the Company has, directly or indirectly, less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

(a) the contractual arrangement with the other vote holders of the investee;

(b) rights arising from other contractual arrangements; and

(c) the Group's voting rights and potential voting rights.

The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. The results of subsidiaries are consolidated from the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

Profit or loss and each component of other comprehensive income are attributed to the owners of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control described in the accounting policy for subsidiaries below. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognises (i) the assets (including goodwill) and liabilities of the subsidiary, (ii) the carrying amount of any non-controlling interest and (iii) the cumulative translation differences recorded in equity; and recognises (i) the fair value of the consideration received, (ii) the fair value of any investment retained and (iii) any resulting surplus or deficit in profit or loss. The Group's share of components previously recognised in other comprehensive income is reclassified to profit or loss or retained profits, as appropriate, on the same basis as would be required if the Group had directly disposed of the related assets or liabilities.

2.2 CHANGE IN ACCOUNTING POLICY AND DISCLOSURES

The Group has adopted the following revised standards, which are applicable to the Group, for the first time for the current year's consolidated financial statements:

- Amendments to IAS 19 Defined Benefit Plans: Employee Contributions
- Annual Improvements to IFRSs 2010–2012 Cycle
- Annual Improvements to IFRSs 2011–2013 Cycle

Other than as explained below regarding the impact of IFRS 8, IAS 16, IAS 38, 1AS 24, IFRS 3, IFRS 13 and IAS 40, the adoption of the above revised standards has had no significant financial effect on these financial statements.

(a) The Annual Improvements to IFRSs2010–2012 Cycle issued in December 2013 sets out amendments to a number of IFRSs. Details of the amendments that are effective for the current year are as follows:

- IFRS 8 Operating Segments: Clarifies that an entity must disclose the judgements made by management in applying the aggregation criteria in IFRS 8, including a brief description of operating segments that have been aggregated and the economic characteristics used to assess whether the segments are similar. The amendments also clarify that a reconciliation of segment assets to total assets is only required to be disclosed if the reconciliation is reported to the chief operating decision maker. The amendments have had no impact on the Group.

- IAS 16 Property, Plant and Equipment and IAS 38 Intangible Assets: Clarifies the treatment of gross carrying amount and accumulated depreciation or amortisation of revalued items of property, plant and equipment and intangible assets. The amendments have had no impact on the Group as the Group does not apply the revaluation model for the measurement of these assets.

- IAS 24 Related Party Disclosures: Clarifies that a management entity (i.e., an entity that provides key management personnel services) is a related party subject to related party disclosure requirements. In addition, an entity that uses a management entity is required to disclose the expenses incurred for management services. The amendment has had no impact on the Group as the Group does not receive any management services from other entities.

2.2 CHANGE IN ACCOUNTING POLICY AND DISCLOSURES (CONTINUED)

(b) The Annual Improvements to IFRSs 2011-2013 Cycle issued in December 2013 sets out amendments to a number of IFRSs. Details of the amendments that are effective for the current year are as follows:

- IFRS 3 Business Combinations: Clarifies that joint arrangements but not joint ventures are outside the scope of IFRS 3 and the scope exception applies only to the accounting in the financial statements of the joint arrangement itself. The amendment is applied prospectively. The amendment has had no impact on the Group as the Company is not a joint arrangement and the Group did not form any joint arrangement during the year.

- IFRS 13 Fair Value Measurement: Clarifies that the portfolio exception in IFRS 13 can be applied not only to financial assets and financial liabilities, but also to other contracts within the scope of IFRS 9 or IAS39 as applicable. The amendment is applied prospectively from the beginning of the annual period in which IFRS 13 was initially applied. The amendment has had no impact on the Group as the Group does not apply the portfolio exception in IFRS 13.

- IAS 40 Investment Property: Clarifies that HKFRS 3, instead of the description of ancillary services in IAS 40 which differentiates between investment property and owner-occupied property, is used to determine if the transaction is a purchase of an asset or a business combination. The amendment is applied prospectively for acquisitions of investment properties. The amendment has had no impact on the Group.

In addition, the Company has adopted the amendments to the GEM Listing Rules issued by the Hong Kong Stock Exchange relating to the disclosure of financial information with reference to the Hong Kong Companies Ordinance (Cap. 622) during the current financial year. The main impact to the financial statements is on the presentation and disclosure of certain information in the financial statements.

2.3 ISSUED BUT NOT YET EFFECTIVE INTERNATIONAL FINANCIAL REPORTING STANDARDS

The Group has not applied the following new and revised IFRSs, that have been issued but are not yet effective, in these consolidated financial statements:

Amendments to IAS 1	Disclosure Initiative [1]
IFRS 9	Financial Instrument [2]
Amendments to IFRS 10 and IAS 28 (2011)	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture [1]
Amendments to IFRS 10, IFRS 12 and IAS 28 (2011)	Investment Entities: Applying the Consolidation Exception [1]
Amendments to IFRS 11	Accounting for Acquisition of Interests in Join Operations [1]
IFRS 14	Regulatory Deferral Account [3]
IFRS 15	Revenue from Contracts with Customers [2]
IFRS 16	Leases [4]
Amendments to IAS 16 and IAS 38	Clarification of Acceptable Methods of Depreciation and Amortisation [1]
Amendments to IAS 16 and IAS 41	Agriculture: Bearer Plants [1]
Amendment to IAS 27 (2011)	Equity Method in Separate Financial Statements [1]
Annual Improvements 2012–2014 Cycle	Amendments to a number of IFRSs [1]

2.3 ISSUED BUT NOT YET EFFECTIVE INTERNATIONAL FINANCIAL REPORTING STANDARDS (CONTINUED)

[1] Effective for annual periods beginning on or after 1 January 2016

[2] Effective for annual periods beginning on or after 1 January 2018

[3] Effective for an entity that first adopts IFRSs for its annual financial statements beginning on or after 1 January 2016 and therefore is not applicable to the Group

[4] Effective for annual period beginning on or after 1 January 2019

Further information about those IFRSs that are expected to be applicable to the Group is as follows:

In July 2014, the IASB published the final version of IFRS 9, bringing together all phases of the financial instruments project to replace IAS 39 and all previous versions of IFRS 9. The standard introduces new requirements for classification and measurement, impairment and hedge accounting. The Group expects to adopt IFRS 9 from 1 January 2018. The Group is currently assessing the impact of the standard upon adoption and expects that the adoption of IFRS 9 will have an impact on the classification and measurement of the Group's financial assets.

The amendments to IFRS 10 and IAS 28 (2011) address an inconsistency between the requirements in IFRS 10 and in IAS 28 (2011) in dealing with the sale or contribution of assets between an investor and its associate or joint venture. The amendments require a full recognition of a gain or loss when the sale or contribution of assets between an investor and its associate or joint venture constitutes a business. For a transaction involving assets that do not constitute a business, a gain or loss resulting from the transaction is recognised in the investor's profit or loss only to the extent of the unrelated investor's interest in that associate or joint venture. The amendments are to be applied prospectively. The Group expects to adopt the amendments from 1 January 2016.

IFRS 15 establishes a new five-step model that to account for revenue arising from contracts with customers. Under IFRS 15, revenue is recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The principles in IFRS 15 provide a more structured approach for measuring and recognising revenue. The standard also introduces extensive qualitative and quantitative disclosure requirements, including disaggregation of total revenue, information about performance obligations, changes in contract asset and liability account balances between periods and key judgements and estimates. The standard will supersede all current revenue recognition requirements under IFRSs. In September 2015, the IASB issued an amendment to IFRS 15 regarding a one-year deferred of the mandatory effective date to IFRS 15 to January 2018. The Group expects to adopt IFRS 15 on 1 January 2018 and is currently assessing the impact of IFRS 15 upon adoption.

IFRS 16 sets out the principles for the recognition, measurement, presentation and disclosure of leases. IFRS 16 replaces IAS 17. The Group is currently assessing the impact of the standard upon adoption.

Amendments to IAS 16 and IAS 38 clarify the principle in IAS 16 and IAS 38 that revenue reflects a pattern of economic benefits that are generated from operating business (of which the asset is part) rather than the economic benefits that are consumed through the use of the asset. As a result, a revenue-based method cannot be used to depreciate property, plant and equipment and may only be used in very limited circumstances to amortise intangible assets. The amendments are to be applied prospectively. The amendments are not expected to have any impact on the financial position or performance of the Group upon adoption on 1 January 2016 as the Group has not used a revenue-based method for the calculation of depreciation of its non-current assets.

2.3 ISSUED BUT NOT YET EFFECTIVE INTERNATIONAL FINANCIAL REPORTING STANDARDS (CONTINUED)

Amendment to IAS 1 include narrow-focus improvements in respect of the presentation and disclosure in financial statements. The amendments clarify:

(i) the materiality requirements in IAS 1;

(ii) that specific line items in the statement of profit or loss and the statement of financial position may be disaggregated;

(iii) that entities have flexibility as to the order in which they present the notes to financial statements; and

(iv) that the share of other comprehensive income of associates and joint ventures accounted for using the equity method must be presented in aggregate as a single line item, and classified between those items that will or will not be subsequently reclassified to profit or loss.

Furthermore, the amendments clarify the requirements that apply when additional subtotals are presented in the statement of financial position and the statement of profit or loss. The Group expects to adopt the amendments from 1 January 2016. The amendments are not expected to have any significant impact on the Group's financial statements.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Business combinations under common control

Business combinations under common control are accounted for using merger accounting. Merger accounting involves incorporating the financial statement items of the combining entities or businesses in which the common control consolidation occurs as if they had been consolidated from the date when the combining entities or businesses first came under the control of the controlling party. The assets and liabilities of the acquired entities or businesses are combined using the existing book values from the controlling party's perspective.

No amount is recognised as consideration for goodwill or the excess of the acquirers' interest in the net fair value of acquirees' identifiable assets, liabilities and contingent liabilities over the cost of investment at the time of common control combination, to the extent of the continuation of the controlling party's interest. Any excess of the consideration paid over the net carrying amount of the acquired entities are recognised in capital reserve.

Comparative amounts in the consolidated financial statements are presented using the principles as set out above as if the entities or businesses had been combined at the previous reporting date unless the combining entities or businesses first came under common control at a later date.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Business combinations not under common control and goodwill

Business combinations not under common control are accounted for using the acquisition method. The consideration transferred is measured at the acquisition date fair value which is the sum of the acquisition date fair values of assets transferred by the Group, liabilities assumed by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. For each business combination not under common control, the Group elects whether to measure the non-controlling interests in the acquiree that are present ownership interests and entitle their holders to a proportionate share of net assets in the event of liquidation at fair value or at the proportionate share of the acquiree's identifiable net assets. All other components of non-controlling interests are measured at fair value. Acquisition-related costs are expensed as incurred.

When the Group acquires a business not under common control, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, the previously held equity interest is remeasured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss.

Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability is measured at fair value with changes in fair value either recognised in profit or loss. Contingent consideration that is classified as equity is not remeasured and subsequent settlement is accounted for within equity.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred, the amount recognised for non-controlling interests and any fair value of the Group's previously held equity interests in the acquiree over the identifiable net assets acquired and liabilities assumed. If the sum of this consideration and other items is lower than the fair value of the net assets acquired, the difference is, after reassessment, recognised in profit or loss as a gain on bargain purchase.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill is tested for impairment annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. The Group performs its annual impairment test of goodwill as at 31 December. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units, or groups of cash-generating units, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the Group are assigned to those units or groups of units.

Impairment is determined by assessing the recoverable amount of the cash-generating unit (group of cash-generating units) to which the goodwill relates. Where the recoverable amount of the cash-generating unit (group of cash-generating units) is less than the carrying amount, an impairment loss is recognised. An impairment loss recognised for goodwill is not reversed in a subsequent period.

Where goodwill has been allocated to a cash-generating unit (or group of cash-generating units) and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on the disposal. Goodwill disposed of in these circumstances is measured based on the relative value of the disposed operation and the portion of the cash-generating unit retained.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair value measurement

The Group measures its investment properties at fair value at the end of each reporting period. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1	–	based on quoted prices (unadjusted) in active markets for identical assets or liabilities
Level 2	–	based on valuation techniques for which the lowest level input that is significant to the fair value measurement is observable, either directly or indirectly
Level 3	–	based on valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Impairment of non-financial assets

Where an indication of impairment exists, or when annual impairment testing for an asset is required (other than inventories, financial assets and investment properties), the asset's recoverable amount is estimated. An asset's recoverable amount is the higher of the asset's or cash-generating unit's value in use and its fair value less costs of disposal, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is determined for the cash-generating unit to which the asset belongs.

An impairment loss is recognised only if the carrying amount of an asset exceeds its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is charged to the consolidated statement of profit or loss in the period in which it arises in those expense categories consistent with the function of the impaired asset.

An assessment is made at the end of each reporting period as to whether there is an indication that previously recognised impairment losses may no longer exist or may have decreased. If such an indication exists, the recoverable amount is estimated. A previously recognised impairment loss of an asset other than goodwill is reversed only if there has been a change in the estimates used to determine the recoverable amount of that asset, but not to an amount higher than the carrying amount that would have been determined (net of any depreciation/amortisation) had no impairment loss been recognised for the asset in prior years. A reversal of such an impairment loss is credited to the consolidated statement of profit or loss in the period in which it arises.

Related parties

A party is considered to be related to the Group if:

(a) the party is a person or a close member of that person's family and that person,

(i) has control or joint control over the Group;

(ii) has significant influence over the Group; or

(iii) is a member of the key management personnel of the Group or of a parent of the Group;

or

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Related parties (Continued)

(b) the party is an entity where any of the following conditions applies:

(i) the entity and the Group are members of the same group;

(ii) one entity is an associate or joint venture of the other entity (or of a parent, subsidiary or fellow subsidiary of the other entity);

(iii) the entity and the Group are joint ventures of the same third party;

(iv) one entity is joint venture of a third entity and the other entity is an associate of the third entity;

(v) the entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group;

(vi) the entity is controlled or jointly controlled by a person identified in (a);

(vii) a person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity); and

(viii) The entity, or any member of group of which it is a part, provides key management personnel services to the Group or to the parent of the Group.

Property, plant and equipment and depreciation

Property, plant and equipment are stated at cost less accumulated depreciation and any impairment losses. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

Expenditure incurred after items of property, plant and equipment have been put into operation, such as repairs and maintenance, is normally charged to the consolidated statement of profit or loss in the period in which it is incurred. In situations where the recognition criteria are satisfied, the expenditure for a major inspection is capitalised in the carrying amount of the asset as a replacement. Where significant parts of property, plant and equipment are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciates them accordingly.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Property, plant and equipment and depreciation (Continued)

Depreciation is calculated on the straight-line basis to write off the cost of each item of property, plant and equipment to its residual value over its estimated useful life. The useful lives for this purpose are as follows:

Buildings	Over the shorter of the lease terms and 40 years
Machinery	8 to 10 years
Furniture, fixtures and computer equipment	6 to 10 years
Motor vehicles	4 to 8 years

Where parts of an item of property, plant and equipment have different useful lives, the cost of that item is allocated on a reasonable basis among the parts and each part is depreciated separately. Residual values, useful lives and the depreciation method are reviewed, and adjusted if appropriate, at least at each financial year end.

An item of property, plant and equipment including any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on disposal or retirement recognised in the consolidated statement of profit or loss in the year the asset is derecognised is the difference between the net sales proceeds and the carrying amount of the relevant asset.

Investment properties

Investment properties are interests in land and buildings held to earn rental income and/or for capital appreciation, rather than for use in the production or supply of goods or services or for administrative purpose; or for sale in the ordinary course of business. Such properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at fair value, which reflects market conditions at the end of the reporting period.

Gains or losses arising from changes in the fair values of the investment properties are included in the consolidated statement of profit or loss in the year in which they arise.

Any gains or losses on the retirement or disposal of an investment property are recognised in the consolidated statement of profit or loss in the year of the retirement or disposal.

Intangible assets (other than goodwill)

Intangible assets are measured on initial recognition at cost. The cost of intangible assets acquired is the fair value at the date of acquisition. The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are subsequently amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at each financial year end.

Patents and Licenses

Patents and licenses are stated at cost less any impairment losses and are amortised on the straight-line basis over their estimated useful lives of 10 years.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Leases

Leases where substantially all the rewards and risks of ownership of assets remain with the lessor are accounted for as operating leases. Where the Group is the lessor, assets leased by the Group under operating leases are included in non-current assets, and rental receivable under the operating leases are credited to the consolidated statement of profit or loss on the straight-line basis over the lease terms. Where the Group is the lessee, rentals payable under operating leases net of any incentives received from the lessor are charged to the consolidated statement of profit or loss on the straight-line basis over the lease terms.

Prepaid land lease payments under operating leases are initially stated at cost and subsequently recognised on the straight-line basis over the lease terms.

Investments and other financial assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as financial assets at fair value through profit or loss, loans and receivables and available-for-sale financial investments, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. When financial assets are recognised initially, they are measured at fair value plus transaction costs that are attributable to the acquisition of the financial assets, except in the case of financial assets recorded at fair value through profit or loss.

All regular way purchases and sales of financial assets are recognised on the trade date, that is, the date that the Group commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace.

Subsequent measurement

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial measurement, such assets are subsequently measured at amortised cost using the effective interest rate method less any allowance for impairment. Amortised cost is calculated by taking into account any discount or premium on acquisition and includes fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in other income and gains in the consolidated statement of profit or loss. The loss arising from impairment is recognised in the consolidated statement of profit or loss in finance costs for loans and in other expenses for receivables.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Group's consolidated statement of financial position) when:

- the rights to receive cash flows from the asset have expired; or

- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risk and rewards of ownership of the asset. When it has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Impairment of financial assets

The Group assesses at the end of each reporting period whether there is objective evidence that a financial asset or a group of financial assets is impaired. An impairment exists if one or more events that occurred after the initial recognition of the asset have an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. Evidence of impairment may include indications that a debtor or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganisation and observable data indicating that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

Financial assets carried at amortised cost

For financial assets carried at amortised cost, the Group first assesses whether impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If the Group determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be, recognised are not included in a collective assessment of impairment.

The amount of any impairment loss identified is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not yet been incurred). The present value of the estimated future cash flows is discounted at the financial asset's original effective interest rate (i.e., the effective interest rate computed at initial recognition).

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Impairment of financial assets (Continued)

The carrying amount of the asset is reduced through the use of an allowance account and the loss is recognised in the consolidated statement of profit or loss. Interest income continues to be accrued on the reduced carrying amount and is accrued using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss. Loans and receivables together with any associated allowance are written off when there is no realistic prospect of future recovery and all collateral has been realised or has been transferred to the Group.

If, in a subsequent period, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognised, the previously recognised impairment loss is increased or reduced by adjusting the allowance account. If a write-off is later recovered, the recovery is credited to other expenses in the consolidated statement of profit or loss.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings, net of directly attributable transaction costs.

The Group's financial liabilities include trade payables, other payables and accruals, and amount due to/loan from the immediate holding company, amount due to non-controlling interest and a related company. The financial liabilities are classified and accounted for as loans and borrowings.

Subsequent measurement

The subsequent measurement of financial liabilities depends on their classification as follows:

Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost, using the effective interest rate method unless the effect of discounting would be immaterial, in which case they are stated at cost. Gains and losses are recognised in the consolidated statement of profit or loss when the liabilities are derecognised as well as through the effective interest rate amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in finance costs in the consolidated statement of profit or loss.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled, or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and a recognition of a new liability, and the difference between the respective carrying amounts is recognised in the consolidated statement of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined on the weighted average basis and, in the case of work in progress and finished goods, comprises direct materials, direct labour and an appropriate proportion of overheads. Net realisable value is based on estimated selling prices less any estimated costs to be incurred to completion and disposal.

Cash and cash equivalents

For the purpose of the consolidated statement of cash flows, cash and cash equivalents comprise cash on hand and demand deposits, and short term highly liquid investments that are readily convertible into known amounts of cash, are subject to an insignificant risk of changes in value, and have a short maturity of generally within three months when acquired, less bank overdrafts which are repayable on demand and form an integral part of the Group's cash management.

For the purpose of the consolidated statement of financial position, cash and cash equivalents comprise cash on hand and at banks, including term deposits, and assets similar in nature to cash, which are not restricted as to use.

Provisions

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

When the effect of discounting is material, the amount recognised for a provision is the present value at the end of the reporting period of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in finance costs in the statement of profit or loss.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Income tax

Income tax comprises current and deferred tax. Income tax relating to items recognised outside profit or loss is recognised outside profit or loss, either in other comprehensive income or directly in equity.

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period, taking into consideration interpretations and practices prevailing in the countries in which the Group operates.

Deferred tax is provided, using the liability method, on all temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- when the deferred tax liability arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and

- in respect of taxable temporary differences associated with investments in subsidiaries, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, the carryforward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carryforward of unused tax credits and unused tax losses can be utilised, except:

- when the deferred tax asset relating to the deductible temporary differences arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and

- in respect of deductible temporary differences associated with investments in subsidiaries, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be recovered.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Income tax (Continued)

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Employee benefits

The employees of the Group which operate in Mainland China are required to participate in a central pension scheme operated by the local municipal government. The Group are required to contribute a certain percentage of their payroll costs to the central pension scheme. The contributions are charged to the statement of profit or loss as they become payable in accordance with the rules of the central pension scheme.

Revenue recognition

Revenue is recognised when it is probable that the economic benefits will flow to the Group and when the revenue can be measured reliably, on the following bases:

(i) from the sale of goods, when the significant risks and rewards of ownership have been transferred to the buyer, provided that the Group maintains neither managerial involvement to the degree usually associated with ownership, nor effective control over the goods sold;

(ii) from the rendering of services, when the services are provided;

(iii) commission income, when the services are provided;

(iv) rental income, on a time proportion basis over the lease terms; and

(v) interest income, on an accrual basis using the effective interest method by applying the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, when appropriate, to the net carrying amount of the financial asset.

Foreign currencies

These financial statements are presented in Renminbi ("RMB"), which is the Company's and the Group's functional currency. Foreign currency transactions recorded by the entities in the Group are initially recorded using their respective functional currency rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency rates of exchange ruling at the end of the reporting period. Differences arising on settlement or translation of monetary items are recognised in the statement of profit or loss. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and their accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future.

Judgements

In the process of applying the Group's accounting policies, management has made the following judgement, apart from those involving estimations, which have the most significant effect on the amounts recognised in the financial statements:

Income taxes

Significant judgements on the future tax treatment of certain transactions are required in determining income tax provisions. The Group carefully evaluates tax implications of transactions and tax provisions are recorded accordingly. The tax treatment of such transactions is reconsidered periodically to take into account all changes in tax legislation.

Classification between investment properties and owner-occupied properties

The Group determines whether a property qualifies as an investment property, and has developed criteria in making that judgement. Investment property is a property held to earn rentals or for capital appreciation or both. Therefore, the Group considers whether a property generates cash flows largely independently of the other assets held by the Group. Some properties comprise a portion that is held to earn rentals or for capital appreciation and another portion that is held for use in the production or supply of goods or services or for administrative purposes. If these portions could be sold separately or leased out separately under a finance lease, the Group accounts for the portions separately. If the portions could not be sold separately, the property is an investment property only if an insignificant portion is held for use in the production or supply of goods or services or for administrative purposes. Judgement is made on an individual property basis to determine whether ancillary services are so significant that a property does not qualify as an investment property.

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (CONTINUED)

Estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below:

Net realisable value of inventories

Net realisable value of inventories is the estimated selling price in the ordinary course of business, less estimated costs of completion and selling expenses. These estimates are based on the current market condition and the historical experience of selling products of similar nature. It could change significantly as a result of competitor actions in response to the changes in market condition. Management reassesses these estimations at the reporting date.

Impairment of non-financial assets

The Group assess whether there are any indicators of impairment for all non-financial assets at the end of each reporting period. These non-financial assets are tested for impairment when there are indicators that the carrying amounts may not be recoverable. An impairment exists when the carrying value of an asset exceeds it recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The calculation of the fair value less costs of disposal is based on available data from binding sales transactions in an arm's length transaction of similar assets or observable market prices less incremental costs for disposing of the asset. When value in use calculations are undertaken, management must estimate the expected future cash flows from the asset and choose a suitable discount rate in order to calculate the present value of those cash flows.

Impairment of trade receivables and other receivables

The policy for the provision for impairment of trade receivables and other receivables of the Group is based on the evaluation of collectability and aging analysis of accounts and on management's judgment. A considerable amount of judgment is required in assessing the ultimate realisation of these receivables, including the current creditworthiness and the past collection history of each customer. If the financial conditions of customers of the Group were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required.

Impairment of property, plant and equipment and prepaid land lease payments

The recoverable amount of an asset is the higher of its fair value less cost to sell and its value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset, which requires significant judgement relating to level of revenue and amount of operating costs. The Group's management uses all readily available information in determining an amount that is a reasonable approximation of the recoverable amount, including estimates based on reasonable and supportable assumptions and projections of revenue and operating costs. Changes in these estimates could have a significant impact on the carrying value of the assets and could result in additional impairment charge or reversal of impairment in future periods.

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (CONTINUED)

Estimation uncertainty (Continued)

Useful lives of property, plant and equipment

The management of the Group determines the estimated useful lives and related depreciation charges for its property, plant and equipment. The estimate is based on the historical experience of the actual useful lives of property, plant and equipment of similar nature and functions. It could change significantly as a result of technical innovations and competitors' actions in response to severe industry cycle. Management will revise the depreciation charge where useful lives are different from previously estimated, or it will write-off or write-down technically obsolete or non-strategic assets that have been abandoned or sold.

Useful lives of intangible assets

The estimated useful life is generally the term of the patent and trademark. Using the patent and trademark term reflects the period over which the Group will receive economic benefit. The estimated useful economic life reflects the Group's expectation of the period over which the Group will continue to receive economic benefit from the patent and trademark. The economic lives are periodically reviewed taking into consideration such factors as changes.

Estimation of fair value of investment properties

In the absence of current prices in an active market for similar properties, the Group considers information from a variety of sources, including:

(a) current prices in an active market for properties of a different nature, condition or location, adjusted to reflect those differences;

(b) recent prices of similar properties on less active markets, with adjustments to reflect any changes in economic conditions since the date of the transactions that occurred at those prices; and

(c) discounted cash flow projections based on reliable estimates of future cash flows, supported by the terms of any existing lease and other contracts and (when possible) by external evidence such as current market rents for similar properties in the same location and condition, and using discount rates that reflect current market assessments of the uncertainty in the amount and timing of the cash flows.

The carrying amount of investment properties at 31 December 2015 was RMB22,630,000 (2014: RMB27,140,000).

Further details, including the key assumptions used for fair value measurement are given in note 13 to the financial statements.

4. OPERATING SEGMENT INFORMATION

For management purposes, the Group is organised into business units based on their products and services and has six (2014: five) reportable operating segments as follows:

(i) Fire-fighting equipment segment — manufacture and sale of pressure vessels (including fire-fighting equipment products and pressure vessels products);

(ii) Inspection services segment — provision of fire technology inspection services;

(iii) Grooved couplings segment — manufacture and trading of iron casted grooved couplings;

(iv) Trading segment — trading of sanitary-ware and other products and commission income;

(v) Aquarium products segment — sale of aquarium products; and

(vi) Property investment segment — invests in office building and industrial properties for its rental income potential.

The aquarium products segment was commenced during the year through a newly incorporated subsidiary.

Management monitors the results of the Group's operating segments separately for the purpose of making decisions about resources allocation and performance assessment. Segment performance is evaluated based on reportable segment profit, which is a measure of adjusted profit before tax. The adjusted profit before tax is measured consistently with the Group's profit before tax except that interest income and finance costs, as well as head office and corporate expenses are excluded from such measurement.

Segment liabilities exclude amount due to/loan from the immediate holding company, amount due to non-controlling interest and a related company, tax payables and deferred tax liabilities as these liabilities are managed on a group basis.

The group operates principally in the PRC. Over 90% of the Group's revenue is derived from sales of goods and rendering of services in the PRC and over 90% of the Group's assets are located in the PRC. Accordingly, no further disclosures by reportable segments based on geographical segment were made.

4. OPERATING SEGMENT INFORMATION (CONTINUED)

Information about major customers

For the year ended 31 December 2015, there was no revenue from sales to any single external customer that contributed over 10% of the Group's total revenue. For the year ended 31 December 2014, revenue from transactions with a single external customer of approximately RMB35,754,000, which represented more than 10% of the Group's revenue, was derived from trading of products segment. This customer is an independent third party.

5. REVENUE, OTHER INCOME AND GAINS

Revenue represents the net invoiced value of sales of pressure vessels (including fire fighting equipment products and pressure vessels products), provision of fire technology inspection services, trading of iron casted grooved couplings, sales of aquarium products, and trading of sanitary-ware and other products and commission income, net of business tax, value-added tax, trade discounts and returns during the year.

An analysis of revenue, other income and gains for the year ended 31 December 2015 is as follows:

9. INCOME TAX

No provision for Hong Kong profits tax have been made as the Group had no assessable profits arising in Hong Kong during the year (2014: Nil). Under the Corporate Income Tax Law, the corporate income tax ("CIT") rate is calculated at a rate of 25% (2014: 25%) on the Group's estimated assessable profits for the year ended 31 December 2015.

Under the Corporate Income Tax Law, the CIT rate applicable to small-scale enterprises with low profitability that meet certain conditions shall be reduced to 20%. One of the Company's subsidiaries has been designated as a small-scale enterprise. Pursuant to the notice of the Ministry of Finance and the State Administration of Taxation on Preferential Income Tax Policies for Small Low-Profit Enterprises, the CIT rate is calculated at a rate of 20% on the 50% assessable profits generated by this subsidiary for the year ended 31 December 2015.

Pursuant to an approval document issued by the Shanghai Municipal Bureau of Local Taxation, another subsidiary of the Group had been designated as a small low-profit services enterprise and was subject to the concessionary tax rate of 2.5%, i.e. at a rate of 25% on 10% of its revenue, for the year ended 31 December 2014. This subsidiary is subject to the normal CIT rate of 25% thereafter.

The tax effect of temporary differences for deferred tax assets was not recognised in the financial statements due to the uncertainty of future profits streams against which the assets can be utilised. These tax loss benefits will be expired in the next five years, details of which are set out in note 20(b) to the financial statements.

A reconciliation of the tax expense applicable to (loss)/profit before tax at the statutory rates for the countries in which the Company and its subsidiaries are domiciled to the tax expense at the effective tax rate, and a reconciliation of the applicable rates (i.e. the statutory tax rates) to the effective tax rates, are as follows:

10. (LOSS)/EARNINGS PER SHARE ATTRIBUTABLE TO ORDINARY EQUITY HOLDERS OF THE COMPANY

The calculation of basic (loss)/earnings per share amounts is based on the loss attributable to ordinary equity holders of the Company of RMB1,070,000 (2014: profit of RMB7,334,000) and the number of ordinary shares of 187,430,000 (2014: 187,430,000) in issue during the year.

No adjustment has been made to the basic (loss)/earnings per share amounts for the years ended 31 December 2015 and 2014 in respect of a dilution as the Group had no potentially dilutive ordinary shares in issue during these years.

11. DIVIDEND

The directors do not recommend the payment of any dividend for the year ended 31 December 2015 (2014: Nil).

12. PROPERTY, PLANT AND EQUIPMENT (CONTINUED)

Notes:

a. As detailed in note 1 to the financial statements, the legal title of the Relevant Property has not yet been transferred to one of the Company's indirectly owned subsidiary, Special Cylinder, as at the end of the reporting period and the date of the financial statements, but the Relevant Property has been used by Special Cylinder. As Guangyang is still the legal owner of the Relevant Property, the prepaid land lease payments and buildings have not been recognised but included in non-controlling interests in the consolidated statement of financial position as at 31 December 2015 and 2014. Accordingly, the amortisation/depreciation of the Relevant Property of approximately RMB296,000 for each of the years ended 31 December 2014 and 2015 was not provided for in the consolidated financial statements.

b. As at 1 September 2015, an investment property situated in the PRC was transferred from investment properties to owner-occupied property at a fair value of RMB5,190,000 (note 13). The deemed cost of the aforesaid property is the fair value at the date of change in use (i.e. RMB5,190,000) . The aforesaid property was previously leased to an independent third party for earning rental income. Pursuant to a resolution passed at a meeting of the board of directors, the Company has changed its intention of holding the property for the Group's own used since 1 September 2015.

c. Certain of the Group's plant and machineries (the "Plant") were situated on certain land and buildings (the "Leased Property"), which was previously owned by the former immediate holding company, 上海華盛企業(集團)有限公司 (literally translated as "Shanghai Huasheng Enterprises (Group) Co., Ltd. ("Huasheng")), which had granted a lease (the "Original Tenancy") to use to the Company in October 2008. The Leased Property had been pledged to secure bank loans granted by a bank (the "Bank") to Huasheng in March 2005. In May 2012, the Bank put the Leased Property into an auction. The Leased Property was acquired by the current landlord (the "Current Landlord") on 9 May 2013.

During the year, the Current Landlord filed a suit in the Qingpu People's Court ("上海市青浦區人民法院") against the Company in respect of (i) requesting the Company to move out from the Leased Property; and (ii) paying rental expenses for the period from 9 May 2013 to 8 May 2015 as the Current Landlord is of the view that the Original Tenancy is not legally valid because the Original Tenancy was entered into between Huasheng and the Company without the consent of the Bank at the time or subsequently rectified by the Current Landlord. The legal case is still in progress as at 31 December 2015 and the date of approving these financial statements. In the opinion of the directors of the Company, there was no significant financial impact on the Company as (i) the related rental expenses for the period from 9 May 2013 to 31 December 2015 have been accrued and charged to the consolidated statement of profit or loss for the year ended 31 December 2015; and (ii) the Plant can be relocated to other factory premises owned by the Group without significant relocation losses and expenses or significant disruption to its operations.

The investment properties were pledged to secure the banking facilities granted to the Group (note 25).

Pursuant to the Letter on Confirmation of Land Redevelopment Proposal of Urban Villages located at Xin Lian Village and Mao Jia Jiao Village, Zhonggu Town, Qingpu District, Shanghai (《上海城鄉建設和管理委員會關於確認青浦區重固鎮新聯村、毛家角村 "城中村"改造地塊實施方案的函》) (the "Land Redevelopment Proposal of Zhonggu Town") issued by the Shanghai Urban-Rural Construction and Management Commission and based on the discussion between the management and the relevant government officials, it is confirmed that the industrial property of the Group located at 740 and 777 Zhonggu Street, Zhonggu Town, Qingpu District, Shanghai (上海市青浦區重固鎮重固大街740及777號) (the "Zhonggu Factories") is included in the Land Redevelopment Proposal of Zhonggu Town. The government has not yet formulated any specific schedule or compensation proposal for resumption of such land parcels (including the Zhonggu Factories). The Zhonggu Factories is currently leased to a third party.

The Group's investment properties consist of industrial properties in the PRC. The investment properties were revalued on 31 December 2015 by Asset Appraisal Limited, independent professionally qualified valuers (the "Valuer"), at RMB22,630,000. The net gain on fair value adjustment of RMB680,000 is recognised in the line item "other income and gain" in the consolidated statement of profit and loss.

The Group's finance department, including the finance manager, reviewed the valuation performed by the independent valuer for financial reporting purpose. At each financial year end, the finance department:

- Verifies all major inputs to the independent valuation report;
- Assesses property valuation movements when compared to the prior year valuation report; and
- Holds discussions with the independent valuer.

Industrial property located in the PRC	–	21,950	–	21,950
	–	27,140	–	27,140

During the year, there was a transfer in the fair value measurement of industrial property from Level 2 to Level 3 due to the changes in valuation method from market approach to comparison approach. The comparison was made based on prices information of comparable properties of similar size, character and location ("Market Approach"); and cross-checked the results of Market Approach to Income Capitalisation Approach which was based on the net rental income generated from the properties under the existing leases to be executed for the properties with due allowance on the reversionary interest upon expiry of the existing leases. In the opinion of the Directors, the change of valuation method would be more effectively reflect the fair value of the Group's and the Company's industrial property. The Group's policy is to recognise transfers between levels of fair value hierarchy as at the end of reporting period in which they occur.

	25,820	15,664

The Group's trading terms with its customers are mainly on credit, except for new customers, where payment in advance is normally required. The credit period is generally two months, extending up to half year for major customers. The Group seeks to maintain strict control over its outstanding receivables in order to minimise credit risk. Overdue balances are reviewed regularly by senior management. In view of the aforementioned and the fact that the Group's trade receivables relate to a large number of diversified customers, there is no significant concentration of credit risk. Trade receivables are non-interest-bearing. The movements in provision for impairment of trade receivables are as follows:

	2015	2014
	RMB'000	RMB'000
At 1 January	**1,909**	909
Impairment losses recognised	**221**	1,000
Amount written off as uncollectible	**(233)**	–
At 31 December	**1,897**	1,909

17. TRADE AND BILLS RECEIVABLES (CONTINUED)

Included in the above provision for impairment of trade receivables is a provision for individually impaired trade receivables of approximately RMB1,897,000 (2014: approximately RMB1,909,000) with carrying amounts before provision of approximately RMB1,968,000 (2014: approximately RMB1,980,000).

An aged analysis of the trade and bills receivables as at the end of reporting period, based on the invoice date, is as follows:

	2015	2014
	RMB'000	RMB'000
Within 1 month	**6,804**	5,822
1 to 2 months	**1,109**	2,502
2 to 3 months	**3,527**	1,657
Over 3 months	**14,380**	5,683
	25,820	15,664

The aged analysis of the trade and bills receivables that are not individually nor collectively considered to be impaired is as follows:

	2015	2014
	RMB'000	RMB'000
Neither past due nor impaired	**9,989**	10,211
Less than 1 month past due	**1,445**	1,822
1 to 3 months past due	**1,901**	956
More than 3 months past due	**12,414**	2,604
	25,749	15,593

Receivables that were neither past due nor impaired relate to a large number of diversified customers for whom there was no recent history of default.

Receivables that were past due but not impaired relate to a number of independent customers that have a good track record with the Group. Based on past experience, the directors of the Group are of the opinion that no provision for impairment is necessary in respect of these balances as there has not been a significant change in credit quality and the balances are still considered fully recoverable.

Note:

(i) SPFE and SLFE are controlled by Zhejiang Hengtai, the ultimate holding company of the Group. The amounts due from these fellow subsidiaries are unsecured, interest-free and have no fixed terms of repayment. These balances as at 31 December 2014 and 2015 were trade in nature.

20. DEFERRED TAX

(a) Deferred tax assets not recognised

The Group has not recognised deferred tax assets in respect of tax losses and impairment of trade receivables and provision for inventories (the "Impairment of Assets") arising from the operation in the PRC as it is not considered probable that future taxable profits will be available against which the losses could be utilised. During the year, no unused tax loss of the Group has expired (2014: Nil).

At the end of the reporting periods, the movement of unrecognised deferred tax assets in respect of tax losses and other assets of the Group are as follows:

	Impairment of assets	**Tax losses**	**Total**

Long term loan from the immediate holding company

On 3 December 2010, Zhejiang Hengtai (the ultimate controlling shareholder) and Liancheng (the immediate holding company) have undertaken to collectively provide to the Company with an unsecured interest-free shareholders' loan facility in the sum of not exceeding RMB50 million (the "Facility") for a term of five years from 30 May 2010. The Facility could be extended at the discretion of Liancheng for another two years. On 20 December 2015, Liancheng agreed to further extend the term of the Facility to 30 May 2017. As at 31 December 2015, the accumulated amount of the loan drawn-down by the Company from Liancheng under the Facility was RMB 7,800,000 (2014: RMB7,800,000).

24. DUE TO/LOAN FROM THE IMMEDIATE HOLDING COMPANY, DUE TO NON-CONTROLLING INTEREST AND A RELATED COMPANY (CONTINUED)

27. RESERVES

The amounts of the Group's reserves and the movements therein for the current and prior years are presented in the consolidated statement of changes in equity.

(i) Share premium

Share premium arose from the issuance of share at prices in excess of their par value.

(ii) Capital reserve

	Other reserve	Reversal of revaluation surplus of property, plant and equipment	Waiver of amount due to the immediate holding company	Total
	RMB'000	RMB'000	RMB'000	RMB'000
At 31 December 2014 and at 31 December 2015	18,521	(1,733)	26,867	43,655

Reversal of revaluation surplus of property, plant and equipment

Pursuant to a shareholders' resolution in October 2000, the Company was converted from a limited liability company into a joint stock limited liability company on 1 December 2000. The Company's registered and issued share capital was RMB13,187,000, divided into 131,870,000 Domestic Shares of RMB0.10 each, and was credited as fully paid by capitalising all the Company's then paid-in capital and reserves, calculated based on the Company's PRC GAAP financial statements.

The deficit of approximately RMB1,733,000 in capital reserve of the Company represents the excess of the net assets of the Company calculated based on its PRC GAAP financial statements over that calculated based on its financial statements prepared under IFRS when the conversion took place in 2000. Such excess was resulted from a transfer of equity capital between investors of Shanghai Qingpu Fire-Fighting Equipment Factory in 1996, the Company's property, plant and equipment was revalued, and a revaluation surplus of approximately RMB1,733,000 was recorded as paid-in capital in its PRC GAAP financial statements. In the Group's financial statements prepared under IFRS, all property, plant and equipment was stated at historical cost. Accordingly, an adjustment of the same amount was recorded as a deficit of capital reserve.

Other reserve

This reserve arose from the acquisition of the Anchor Group from Liancheng (the immediate holding company) which was considered by the directors of the Company as business combination under common control of Liancheng and represents the difference between (i) the consideration paid by the Company to Liancheng and (ii) the net assets of the Anchor Group at the date of 11 April 2011 (being the acquisition date of the Anchor Group by Liancheng).

27. RESERVES (CONTINUED)

(iii) Statutory reserve fund

According to PRC regulations and the relevant Articles of Association, each of the Company and its subsidiaries established in the PRC is required to transfer 10% of its respective profit after tax, as determined under the PRC accounting standards and regulations, to statutory reserve fund until the fund reaches 50% of the respective companies' registered capital. The transfer to this reserve must be made before distributing dividends to the respective companies' shareholders.

The statutory reserve fund can be used to make up for previous years' losses, if any. It may be converted into share capital by issuing new shares to the respective companies' shareholders in proportion to their existing shareholdings or by increasing the par value of the shares currently held by them, provided that the balance after such issue is not less than 25% of the registered capital.

(iv) Discretionary common reserve fund

Each of the Company and its subsidiaries established in the PRC may, at its discretion and subject to approval of its respective shareholders, transfer its retained earnings balance to its discretionary common reserve fund. The usage of discretionary common reserve fund is similar to that of the statutory reserve fund.

28. OPERATING LEASE ARRANGEMENTS

(a) As lessor

The Group lease its investment properties to independent third parties under operating leases arrangements with the leases negotiated for terms ranging from 1 to 5 years. The terms of the leases generally also require the tenants to pay security deposits and provide for periodic rent adjustment according to the then prevailing market conditions.

At 31 December 2015, the Group had total future minimum lease receivable under non-cancellable operating leases falling due as follows:

	2015	2014
	RMB'000	RMB'000
Within one year	**1,602**	2,102
In the second to fifth years, inclusive	**–**	1,124
	1,602	3,226

28. OPERATING LEASE ARRANGEMENTS (CONTINUED)

(b) As lessee

The Group lease certain land and buildings from independent third parties under operating lease arrangements. Leases for land and properties are negotiated for terms ranging from 1 to 10 years.

The Company had entered into a rental agreement to lease certain properties for the period from 30 October 2008 to 30 October 2018, the rental expense is approximately RMB489,000 per annum, further details of which is set out in note 12(c) to the consolidated financial statements.

Apart from the above, at 31 December 2015, the Group had total future minimum lease payments under non-cancellable operating leases with its tenant falling due as follows:

	2015	2014
	RMB'000	RMB'000

29. CAPITAL COMMITMENTS

Except for the operating lease arrangements, the Group did not have any significant capital and other commitments at the end of the reporting period.

30. RELATED PARTY TRANSACTIONS AND BALANCES

(a) In addition to the transactions and balances detailed elsewhere in these financial statements, the Group had the following material transactions with related parties, which also constitute continuing connected transactions under the GEM Listing Rules, during the year:

	2015 RMB'000	2014 RMB'000
Sales of goods		
SPFE	**261**	1,380

32. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS

The Group did not have any financial assets and financial liabilities measured at fair value as at 31 December 2014 and 2015.

33. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's financial instruments comprise cash and bank balances, trade and bills receivables, and trade payables which arise directly from its operations.

The main risks arising from the Group's financial instruments are interest rate risk, foreign currency risk, credit risk and liquidity risk. The board of directors reviews and agrees policies for managing each of these risks and they are summarised below.

Interest rate risk

The interest-bearing bank borrowing with fixed interest rate will be repaid within 1 year. The interest rate risk of the Group is insignificant. The Group's results and operating cash flows are substantially independent of changes in market interest rates.

Foreign currency risk

The Group does not have significant foreign currency risk arising from future commercial transactions and recognised financial assets and liabilities since almost all of them are denominated in Renminbi.

Credit risk

The Group trades only with recognised and creditworthy third parties. It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an on-going basis and the Group's exposure to bad debts is not significant.

The credit risk of the Group's other financial assets, which comprise cash and bank balance and amounts due from fellow subsidiaries, arises from default of the counterparty, with a maximum exposure equal to the carrying amount of these instruments.

The credit risk on liquid funds is limited because majority of the counterparties are banks of high credit quality and state-owned banks with good reputation in the PRC.

Since the Group trades only with recognised and creditworthy third parties, there is no requirement for collateral. Concentrations of credit risk are managed by customer, by geographical region and by industry sector. There are no significant concentrations of credit risk within the Group.

Liquidity risk

The Group monitors its risk to a shortage of funds using a recurring liquidity planning tool. This tool considers the maturity of both its financial instruments and financial assets (e.g., trade receivables) and projected cash flows from operations. The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of other borrowings.

On 3 December 2010, the ultimate controlling shareholder, Zhejiang Hengtai, and the immediate holding company, Liancheng, have undertaken to collectively provide to the Company with an unsecured, interest-free shareholders' loan facility in the sum of not exceeding RMB50 million for a term of five years, extendable at the discretion of Liancheng for further two years. On 20 December 2015, Liancheng agreed to further extend the term of the Facility to 30 May 2017. As at 31 December 2015, RMB7,800,000 has been drawn down by the Company.

33. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

33. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

Capital management

The primary objectives of the Group's capital management are to safeguard the Group's ability to continue as a going concern and to maintain healthy capital ratios in order to support its business and maximise shareholders' value.

The Group manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders of issue new shares. No changes were made in the objectives, policies or processes for managing capital during the years ended 31 December 2015 and 2014.

The Group monitors capital using a gearing ratio, which is net debt divided by the total capital plus net debt. Net debt includes trade payables, other payable and accruals, amount due to/loan from the immediate holding company and amount due to non-controlling interest and a related company, less cash and cash equivalents. Capital includes equity attributable to owners of the Group. The gearing ratios as at the end of reporting periods were as follows:

	2015 **RMB'000**	2014 RMB'000
Trade payables	**7,910**	9,870
Other payables and accruals	**7,191**	10,422

Capital and net debt	**87,123**	83,182
Gearing ratio	**2.3%**	N/A

34. EVENTS AFTER THE REPORTING PERIOD

On 26 January 2016, the Group entered into a sale and purchase agreement with two independent third parties (the "Vendors"), pursuant to which, the Group will acquire and the Vendors will sell 100% equity interest in 上海安航海上消防設備有限公司 (Shanghai An Hang Marine Fire-Fighting Equipment Co., Ltd.) at a consideration of RMB6,000,000, which will be settled in cash.

35. COMPARATIVE AMOUNTS

As further explained in note 2.2 to the financial statements, due to the implementation of the Hong Kong Companies Ordinance (Cap. 622) during the current year, the presentation and disclosures of certain items and balances in the financial statements have been revised to comply with the new requirements. Accordingly, certain comparative amounts have been restated to conform with the current year's presentation and disclosures.

FIVE YEAR FINANCIAL SUMMARY

* Due to the application of merger accounting for business combination under common control, which involves incorporating the financial statement items of the Anchor Group in which the common control consolidation occurs as if they had been consolidated since 11 April 2011, the date when the combining entities or businesses first came under the control of the controlling party. Accordingly, the comparative consolidated financial statements for the years ended 31 December 2011 and 2012 have been restated.

This summary does not form part of the audited consolidated financial statements.
